Ramon Reyes
Helping Companies solve problems with clean coding

ramon.reyes.webdev@gmail.com, (203)526-3820, Bridgeport, CT GitHub, Portfolio, LinkedIn

Summary

When it comes to web development, learning never ends. As both a developer and an avid life-long learner, I am committed to applying technology to solve problems while continuing to grow and evolve right along with my skillset. Most importantly, I am committed to writing clear reusable code in a clean and legible package and using thoughtful and effective communication to ensure that technology successfully enhances the lives of its end users.

Skills

FrontEnd: Javascript, React, Redux, HTML CSS
Backend: Node.js, Express, MongoDB, Mongoose, Passport, bCrypt, PostgresSQL, Python
Workflow: Github, TravisCI, Heroku, Mocha, Chai, Enzyme, NPM, Yarn
Design: Adobe Photoshop, Illustrator, InDesign, Affinity Designer, Affinity Photo
Language: English, Spanish, French

Recent Projects

Rephrase http://rephrase-it.herokuapp.com/
Provides dictaphone functionality and chat-rooms that instantly translated messages to a default language. Made using MongoDB, Socket.io, OAuth2.0, and Reactjs.

Hanzi
http://hanzi-app.herokuapp.com
Learn mandarin through flashcards and spaced repetition. Created with MongoDB, React, and NodeJs.

Adoptme
https://lit-caverns-27597.herokuapp.com/
Pet Adoption site for peet-seekers and animal shelters. Made with MongoDB, NodeJs, React, and GoogleAuth2.0.

Flixzon
https://flixzon.herokuapp.com/
Search for the availability of shows on Netflix, Hulu. Created using React, Redux, and Guidebox Api.

Experience

Silicon Integration: *Smt Checker*   Milford, CT, *7/06 – 1/17*
- Carried out detail oriented inspections of computer boards.
- Helped ensure that a working, error free product was shipped out and that the company's reputation was maintained.

NICABM: *Graphic Designer*   Storrs, CT, *1/06 – 7/06*
- Designed promotional materials, and an annual catalog.
- Updated and maintained the company website.

Education

University of Connecticut: *BFA, Graphic Design*   2001-*2006*
THINKFUL: *Web Development Intensive*   *1-28-2017* - *6-30-2017*
Four month full-time course on modern web development with a focus on one-on-one mentorship, pair-programming, and extensive project work.
